

Interactive MMT AVR Table

55", 65", 86"

A truly unique touch table solution – the AVR Edge. Set your collaboration needs apart from the rest with this virtually seamless, 40-point simultaneous touch, 4K display table!

Especially designed for:

- ✓ Directories
- ✓ Wayfinding
- ✓ Advertising
- ✓ Education
- ✓ Entertainment
- ✓ As extremely powerful collaboration tools, built for any challenge or opportunity

Euro Design

The AVR Series is German designed and tested, utilizing only the highest quality components and cutting edge technologies available.

Full 4K Resolution

UltraHD resolution captivates, engages and inspires audiences with extremely crisp, interactive graphics and imagery.

Touch Capabilities

Interactive to the max, these powerful tables are built with 40 points of simultaneous touch (PCAP or IR technology, depending on the model). That means 40 fingers can collaborate on these tables at the same time!

Driving Content

The AVR Edge has a sleek and modern base, designed to house a computer workstation, while the AVR Slim models are designed with a built in OPS slot.
